THE WEEK IN SOCIETY.

It is a curious fact that in spite of the heat last week there was in certain fashionable places in the city less of that melancholy look of desertion which city less of that the season and usually characterizes this period of the season, and for some reason the clubs seemed full of men, among whom there is no dissent from the opinion among whom the considered, city houses are more comfortable than country hotels. Along the banks of the Hudson River and on the north and south shores of Long Island large numbers of New-Yorksheres of Long Island large numbers of New-York-ers are Eathered who seem to have dispersed less than usual this summer for a few weeks of good time at Newport and Bar Harbor. Still, both places are full of people and there appears to be no lack of amusement and of things which recreate.

New-London was in a blaze of light and color on Wednesday night after the arrival of the yacht mer of sails and the darting of small craft in and out among the larger boats, which, with the wavof fass and pennants and the general exciteing of mass and pendants and the general excite-ned pervading the throng of admiring spectators of store, made the lively scene which occurs once in year at New-London. Innumerable suppor arits were made up for the different yachts, and the splash of the oars in the water, with the glitter of moonlight on its surface, added to the fairy-like appearance of the harbor. If there was no dancing at the Pequot there was plenty of sentimentalizing, and many of the yachtsmen would gladly have lingred longer to enjoy all the things that willing hands and hearts were anxious to do for their enteriainment. But, sailor fashion, they were off at an early hour in the morning for the sail to Newport.

At Newport the arrival of the yachts produced even more excitement than at New-London. Several steam yachts with gay parties on board went

been heretofore. The gayety in the city by the sea has started, and tall hats and frock coats are to be seen in greater numbers; tandems are winding and out among the equipages in Bellevue-ave. and life there just now is most agreeable. The weather is pleasant and everything fresh enough to make driving a pleasure instead of the penance

dusty roads inflict. Dinner parties take place every right, and society is large enough to admit of hosts and hostesses leading their own lives and gathering helr own set about them without danger of offence or misunderstanding. The Casino and Golf clubs make a common meeting ground, and as the polo season has not yet opened, at these places are to be seen the most dazzling display of fashionable rai-The Casino dances have been so successful of late that it seems as if the ball to be given in a fortnight could hardly be more charming, but the patronesses will doubtless originate some novelty which will make it a most brilliant affair. Many new faces and beautiful new gowns were seen at the dance on Monday night. Mrs. John Jacob Astor, who was in the crowd, wore a gown of shimmering white silk, draped with violet tuile, which was spangled with silver. Mrs. Cornelius Vanderbilt were a rich gown of black slik, trimmed with Spanish lace. Miss Gertrude Vanderbilt's gown was of pale blue moiré, the bottom of the skirt trimmed with small clusters of pink roses. Mrs. George B. ornamented with a large knot of magenta velvet. Baroness Seilliere was attired in a gown of white silk, the bodice being profusely trimmed with point lace and ablaze with diamond ornaments, and the sleeves made of ruffled chiffon. Her ernaments were a collarette of diamonds and crescents of stars in the coffiure. Miss Edith Cushing were pale green crèpe de chine, made with a deep bertha and sleeves of point lace. Miss Anna Sands were an attractive gown of solfering sik combined with black moiré and trinmed with white lace. to hold the review at Graves's Point, and to have dancing after the luncheon. The parade will, in all probability, he led by Frederic Bronson, who, with Mrs. Bronson, is at present the guest of Colo-nel George R. Fearing. Mrs. W. Seward Webb will probably ride on the box on Perry Belmont's coach, and Mrs. Cornellus Vanderbilt will probably sit beside Dr. Webb on his coach. With all that is promised in the way of entertainments for the next five or six weeks, there is no danger of Newport settling down to stagnation or dying of dry rot as

Recruits are still in demand for stainmental purposes, for the female contingent this year is large and there are hardly men enough to go round. The week at the Mainer resort was begun with dinner parties given on Monday night before the dance at the Malvern, by Mrs. Thomas Stokes, Mrs. Lucius K. Wilmerding, Mr. and Mrs. William Lawrence Green, Mr. and Mrs. Thomas Robins, and several others, On Thursday General Schofield was entertained at breakfast by Dr. William Tod Heimuth, at his summer home, Steepways, and in the afternoon Daniel T. Paris, and Mrs. Paul Brenning, whose marriage took place in St. Patrick's Cathedral a few months ago. Mr. Brenning is United States Consul to the Island of Java. Mrs. Brenning was the widow of McKenzle Semple.

One of the first of the September weddings of interest to New-Yorkers will be that of Miss Du Val, daughter of Captain Du Val, of the United States Army, to Louis Eugene Marie, son of Joseph and Peter Marie, of this city. The wedding will be celebrated at Fortress Monroe on Tuesday, September 18. Mr. Marie, who is well known in this city, is an architect and stands well in his profession. He will be attended as best man at his wedding by John Van Schulck Oddie, jr., of this city, and Parker Freeman, his cousin, will be among the ushers. Mr. Marie will give his farewell bachelor dinner at his home in the suburbs of Philadelphia on the evening of September 1. Several engagements were announced last week. One of the first made public was that of Miss Ruth Lambert, sister of Dr. Alexander Lambert, of this city, to Knight Dexter Cheney, fr., of South Manchester. The engagement was also announced of Miss Helen Cheney, daughter of Knight Dexter Cheney, of New-Orieans. Dr. Alexander Lamberts engagement to Miss Ellen W. Cheney, also a sister of Mr. Cheney, was announced a short time ago. The three young men are graduates of Yale College. The eagagement was also announced of Miss Josephine Norwood, to Joel Rathbone, of Albany, whose father's home on Washington-ave, in that city, is one of the most beautiful and spacious in the old fown. It was once the home of the father of W. Watts Sherman, John A. Dix and Governor W. C. Bouck, who lived in It fifty-two years ago. The formal announcement is made of the engagement of Miss Clara Taylor Hotchkiss, daughter of Mr. and Mrs. Carlisle Norwood, to Arthur Luclen Niles, whose brother Philip Bradford Niles, is engaged to marry Miss Brookman, a daughter of Mrs. Amory Sibley Carhart.

the squadron and each was decked out in the gayest colors and presented a truly holiday appearance. The prevalence of yachting costumes among the men and women ashore and afloat was indicative of the general interest felt in the coming of the boats and the race for the Goelet Cup on Friday. After the arrival of the yachts came the making of parties and the arrangement of plans to see the start in the cup race. Those who were not so fortunate as to have friends at court and who had no invitations on board of yachts engaged lighters, cathoats and even rowboats to take them out into the bay, where the most beautiful sight imaginable, that of a large fleet of pleasure boats under full sail, delighted their eyes.

The yachts have stirred up affairs at Newport and made them a trifle more lively than they have been heretofore. The gayety in the city by the

Mr. Powell delivered a cordial address of welcome and opened the meeting yesterday with a brief talk on the Friends. He said that the characteristics which distinguished Friends from other religious bodies were the beliefs in the common birthright of each individual in the capacity to listen with the apiritual ear and to hear the spiritual voice, and the immediate presence of the divine in each human soul, the immediate teaching from the divine source. George Fox, the founder of the society, he \$134, came to important conclusions which he afterward found confirmed in the Serfinares. But he gained Massion Rooms, Fifth-ave, and Twentleth-st., to found confirmed in the Scriptures. But he gained them all by immediate revelation, and not from the Bible. "Japan is in better shape financially to prosecute the war than is generally supposed. She has a war fund available of about \$160,000,000 in round numbers. A friend of mine in the Treasury Department writes me that this fund can easily be increased by taxes. It is the policy of the Government to avoid as long as possible negotiating a foreign loan. We expect to be able to send men as well as money to Japan; but doubtless we can render just as efficient service by sending our money and enlisting the sympathies of patriotic Americans as by going home to fight. About 1,000 Japanese on the Pacific coast, the most of whom have had experience in the army or navy, have volunteered to go home and take up arms against China, but we have not considered it advisable ar yet to advise them to go. Japan is not overmatched in this struggle to the extent generally supposed. Japan has about 50,000,000 of people while China has about 450,000,000.
